TELECOMMUNICATION MOUNTING HARDWARE

LYKO
AUTONOMOUS ENERGY UNITS

ROBUST

- Deployed successfully in the most demanding conditions
- Protects the radio and connectors from debris
- High quality powder coating
- Resist vibrations from mobile applications

SPECIALLY ENGINEERED FOR RAJANT'S LX-5 RADIO SYSTEM

- Removable shields allow easy access to connectors for maintenance
- Optional tabs prevent tampering with the ON/OFF and Reset buttons.
- Allows for easy mounting of USB and IP GPS devices.
- Antenna spacing calculated for 900MHz, 2,4GHz and 5,8GHz antenna array.

VERSATILE

- Can be installed with or without magnetic mounts
- Can be mounted horizontally or vertically

Our engineer can fully adapt the products to your specific needs, please contact us for details.
